

St. Patrick's Day Pot of Gold Instructions

- 1) Follow the instructions from the YouTube link to create the body of your basket: [Cup Weaving](#). You will be using jute twine for weaving instead of yarn.
- 2) Weave for about 2 1/2 inches. End weaving as shown in the YouTube video.
- 3) With scissors, cut off the excess paper cup tabs, leaving 1/16" showing above where the weaving ended.
- 4) With a glue gun (or tacky glue), glue the lace ribbon along the top edge of the paper cup to give your basket a finishing touch.
- 5) Loosely fold the pipe cleaner in half to form a handle for the basket. Glue each end of the pipe cleaner onto the **inside** of the cup/basket, with each end on opposite sides of the cup.
- 6) Glue the shamrock onto the front of the basket.
- 7) Fill the basket with gold-wrapped candy and enjoy!
